

One person can't make Targa Newfoundland happen, but a motivated group certainly can!

Targa has never been a one man show. It has always been the result of the collective effort of competitors, communities, volunteers and sponsors. That's what we are assembling now for the 2020 return of Targa. Let's start with competitors.

Since our announcement, I've heard from many, many former competitors who've called and written to share their memories of the event and wish us success in bringing the 2020 event to life. Obviously, there's no event without competitors so that's the starting point in our renewal plan.

To get a minimum of 40 entries that we need to run Targa 2020, I'm challenging the many terrific competitors who have been with us in the past to come back for 2020 – and bring a friend!

Our list of past competitors stretches into the hundreds. For some, it was a once-in-a-lifetime experience. But for many more, it was an annual ritual that brought them to the event year after year. So whether you came to Targa once or a dozen times, I'm challenging you to come to Targa 2020 to help make the magic that simply isn't available anywhere else in North America. Come back for the great friendships, gorgeous Newfoundland scenery, tremendous Newfoundland hospitality and a driving experience like no other.

Targa 2020 is your opportunity to re-live the one motorsport event that will stick in your memory forever. Whether you've been a Targa division competitor, a Grand Touring entry or driven the Fast Tour, we want to see you on the stages next year. You can make it happen but you have to start planning today!

As always, call my cell at 709 682 7900 to talk about being part of history in 2020 or email me at rgiannou@targanewfoundland.com.

Sincerely,
